New City Website Improves User Experience

In February, the City rolled out a new website that is more streamlined and designed to help users find what they need quickly and easily. While the website address remains the same – www.cityofconcord.org – the look has been refreshed and the organization of information and tools has been designed for maximum efficiency.

The seven-month project of transitioning the site from an in-house system to a hosted content-management system by public agency website leader CivicPlus, enabled every City department to review their content and refresh their pages. Departments now have control of their web pages and can easily update their information which will enhance our customer service.

The new site offers a suite of tools that helps organize information so users can find what they need in one section. For example, all documents (pdfs) are housed in the site’s “document center” and linked out to various web pages. All calendar items can be viewed in one spot, if desired, or users can simply check the boxes of the various calendars they are interested in seeing. Additionally, users can sign up for “Notify Me” to receive email or text notifications when an item like a news flash or public meeting agenda is posted.

The City opted to roll out the new site through a “soft launch” a few weeks before publication.

Sign Up for Emergency Alerts

From road closures to wildfires, it is important for City personnel to be able to warn residents, workers and visitors about major incidents that impact the community at large.

Residents and people who work in Concord are encouraged to sign up for a free, opt-in service that will allow users to receive text and voicemail notifications from City staff in the event of an emergency.

We strongly encourage residents and commuters to sign up for local alerts by simply texting the code Concordalerts to 67-283. Standard texting rates apply according to each user’s mobile phone terms. Participants can opt out of the service at any time by texting “STOP Concordalerts” to the same number.

These “push” alerts are part of the Rave Mobile Safety notification system that was developed by the same company that introduced Smart911, which allows Concord residents to proactively provide key information to 9-1-1 in the form of a safety profile. Residents can create a free safety profile by going to www.Smart911.com.

While providing relevant emergency information through the City’s website and social media accounts is part of our standard operating procedure, pushing text and voice notifications out to subscribers’ mobile phones will be a quicker, more efficient way of communicating urgent information.

Mid-Year Budget Update

At the February 26 City Council meeting, Concord Budget Officer Donna Lee presented an update on the mid-year budget for Fiscal Year 2018-19. The year-to-date report showed that the City is on track with projections for both revenue and expenditures.

Ms. Lee reiterated the Council’s Tier 1 priorities as identified in spring of 2018, including: Executing a fiscal stability strategy with a focus on locally-controlled revenues for sustainability, specifically with an eye toward funding that can’t be seized by the State. This was Council’s direction to staff and it remains a top priority as the City seeks to continue implementing fiscally responsible budget strategies.

The mid-year report showed a FY 2017-18 budget residual in the amount of $400,000 from Measure Q, the half-cent local use and transactions tax originally approved by voters in November 2010 and extended by voters in November 2014.

At the February 26 meeting, the Council decided to allocate these funds to roadway repairs, including filling potholes. According to a June 2018 survey, Concord residents say repairing the City’s roads is their number one priority.

This $400,000 allocation supplements the funding for other capital projects that are currently ongoing and paid for through Measure Q. Current projects also include roadway paving near Silverwood and Monte Gardens elementary schools.

The City Council recently allocated a $400,000 budget residual to fund roadway repairs, including filling potholes.

The City has also leveraged its CIP funds to access regional, state and federal grant funding for capital projects, the report showed.

The City’s Transportation division applied for and received $2.4 million in Highway Safety Improvement Program grant funding to improve traffic safety at various locations within Concord. And the California Office of Emergency Service approved staff’s Notice of Interest (NOI) to submit a sub application to the Hazard Mitigation Grant Program to fund 75%, or $393,750, of the Commercial Circle Storm Drain project.

Residents Invited to Comment at Budget Meetings

Residents are invited to attend the City’s Budget Workshop on Tuesday, May 14 during the regular City Council meeting at Civic Center, 1950 Parkside Dr. The meeting will feature an overview of the FY 2019-20 and 2020-21 draft Biennial Budget.

Following this workshop, the Council will adopt its 2-year operating budget for FY 2019-20 and FY 2020-21 at its regularly scheduled meeting on Tuesday, June 11. Public participation is encouraged. During this meeting, the Council will also review and amend year two of its current Capital Budget.

The public is welcome to attend and comment at any of the meetings, which are televised live on Concord Cable TV Comcast channel 28, Wave channel 29 and U-verse channel 99. The broadcasts are also available online through the City’s website, both in real time and archived for future viewing.

As of press time, the City Council was scheduled to participate in an early budget goal-setting workshop on Saturday, March 23, which was publicly noticed and open to the public. A meeting for Council to receive the Master Fee Schedule is also scheduled for April 23.
Addressing Challenges Ahead

Despite the positive news about the City’s current budget being on track with projections, Concord is anticipating significant fiscal challenges that will begin with the upcoming 2-year budget for FY 2019-21.

A February 26 presentation to the City Council showed that the City’s unfunded infrastructure needs continue to grow, and the largest contributor to this liability is unfunded maintenance on roads. This accounts for approximately $18 million of the total $21 million in unfunded needs per year, and that figure continues to rise as a result of increased construction and labor costs, according to Joe Ririe of Pavement Engineering, Inc., who presented information about the state of Concord’s pavement conditions.

This spring, the Council and staff will continue work on a budget stabilization project, which it began last year with assistance from the City’s consultants, Management Partners. Council is considering a number of budget stability measures to address the anticipated shortfall, and these options will be explored in several upcoming meetings, which are referenced in the sidebar on page 4. Residents are invited to participate in these public meetings to provide input.

To stabilize the budget, the City must find ways to decrease expenses and increase revenues. The City will explore all options for bridging the gap, including advocating at the state level for the restoration of significant funding, such as redevelopment dollars, that has been shifted to the state over the years to help balance its budget.

Updates on the City’s budget process can be found at www.cityofconcord.org and archived videos of the Council meetings can be found through the website’s online agenda center.

State of the City Address
In a wide-ranging conversation at the Greater Concord Chamber of Commerce’s annual State of the City luncheon on February 1, Mayor Carlyn Obringer provided a detailed look at Concord’s current state of affairs and the vision for the City’s future. The Mayor covered everything from economic development and public safety to affordable housing and smart technology, and she explained why Concord is a great place to live, work, do business, raise a family, retire, and visit. A recording of this presentation can be streamed on YouTube or through the City’s website.

Complete Streets Study
Thanks to a grant from the California Department of Transportation (Caltrans), the City has undertaken a feasibility study to develop complete street improvement alternatives for Willow Pass Road, Cowell Road, and Galindo Street. The City’s consultant Alta Planning + Design has created an online platform to inform residents and businesses and to solicit input from the public. The project will also include in-person feedback opportunities through community workshops and “pop-up” booths at community events in June. For more details, please visit www.cityofconcord.org/transportation.

Dog Parks Closed
To prevent any “ruff” conditions at the City’s two dog parks, crews have been performing turf maintenance to aerate, seed, fertilize, and top dress the turf.

Newhall Dog Park was scheduled to reopen on March 25, the same day that Baldwin Dog Park was scheduled to close. Baldwin Dog Park is expected to reopen on May 13. City crews only use organic materials, such as mulch and fertilizers, when performing these renovations. No pesticides or herbicides are ever used in the City’s dog parks. If you have any questions, please contact Park Supervisor Tyce Dekker at 925-671-3064.

County Bus System Increases Service within Concord

This spring, County Connection began adding more service to bus routes serving Concord. Route 14, which runs from Concord BART to Pleasant Hill BART, has been extended to Walnut Creek BART and service frequency has increased to every 30 minutes. County Connection has also increased frequency on Route 19, which connects Concord BART to Martinez Amtrak, and on Route 20, which runs from Concord BART to Diablo Valley College.

County Connection has also replaced service on Route 28 between North Concord BART and Mason Circle with new Route 27. Additional service to the area will be provided by a realignment of Route 99X to serve Arnold Industrial Way.

Rides are only $2 each way with a Clipper card (or $1 if transferring from BART), and cash fares are now $2.50. Along with these changes, County Connection announced that its 10 a.m.-2 p.m. free fare program for seniors and disabled passengers has been discontinued. However, seniors and riders with disabilities will continue to get a 50% discount off the regular fare.

For more information on County Connection’s services and additional changes coming this spring, please visit countyconnection.com or call (925) 676-7500.

before announcing it to the public to allow staff time to work out any glitches. To help with the initial review of the live site, staff also called on graduates of Concord’s Community Institute. These engaged residents and businesspeople took a good look at the site and provided feedback to assist staff in making the site even better.

We welcome your feedback, too! If you have ideas for how to make the site easier to navigate, please tell us through this online form: www.cityofconcord.org/webfeedback.
The pool plastering project spanned three months and included replacing the tile and drain grates. Dozens of workers converged on the empty pool to apply the plaster quickly and efficiently so it was not exposed to the dry air and sun for too long. Within hours of the plaster being applied, the pool was filled!

Dive into Summer at Renovated Community Pool

Grab your bathing suit, towel and goggles – the Concord Community Pool is now open! Thanks to a recent replastering project, which was completed in March – a month ahead of schedule – and a pool deck renovation that was done last spring, Concord swimmers have their pool back and it’s better than ever!

The recent Pool Plaster Replacement project (Project No. 2435) fully replaced the plaster, pool tile, and perimeter drain grate. In addition, the old expansion joints were removed and the concrete stairs were reconstructed.

The useful life of pool plaster is approximately 10 to 15 years. The Community Pool’s old plaster was installed in 2004 and was recently showing signs of aging and delamination (a splitting apart of layers), which is why this maintenance was scheduled and prioritized. The total cost of this project was $1,076,000.

With new plaster and a smooth new pool deck, swimmers and aquatics fans now have an updated facility they can enjoy for years to come.

The Community Pool is Concord’s only public swimming pool and offers a variety of programs throughout the year, such as swimming lessons, lap and recreation swimming, deep water workouts, water polo, lifeguard training, and more. The pool also hosts the Terrapins Swim Team and various swim competitions.

For more information about the aquatics programs offered by Concord’s Parks & Recreation Department, please see the “Swimming” section of this Activity Guide, beginning on page 51.

Zumba, Tone and More
With an extra 30 minutes, we continue to mix low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Super effective and super fun rhythms take over, you’ll see why Zumba Fitness classes are often called exercise in disguise. Resistance added by using Toning Sticks (light weights), keeps your muscles engaged! No class May 27, 30; June 3, 6; July 4.

### WAIVER AND RELEASE FROM LIABILITY / ASSUMPTION OF RISK
I, the undersigned, wish to participate in one or more activities (hereinafter collectively referred to as “the Activity”) conducted in collaboration with the City of Concord’s Parks & Recreation Department. I am aware that serious accidents and injuries occasionally occur during recreational pursuits such as the Activity. In consideration of my participation in the Activity, I knowingly and voluntarily assume all risks arising therefrom, and on behalf of myself, my heirs and assigns release the City of Concord, its officers, agents, employees and volunteers from any and all claims, liens, damages, lawsuits, or liability for property damage, injury or death, resulting from, arising out of, or in any way connected with my participation in the Activity.

I agree and acknowledge that this Waiver and Release From Liability/Assumption of Risk shall apply even in the event that I suffer death, personal injury, or property damage as the result of passive or active negligence on the part of the City of Concord, its officers, agents, employees, or volunteers of the City (with the exception of sole, active negligence, or willful misconduct). In the event that the individual participating in the Activity is a minor, I certify that I am his/her parent or legal guardian and I give my permission for him/her to participate in the Activity. I understand my signature is a legal and binding signature and will be considered original if received by fax.

### USE OF PARTICIPANT PHOTOGRAPHS/VIDEO
In addition to the forgoing, I give consent to Concord Parks & Recreation Department or any other media agency authorized by the City of Concord to photograph or video me (or the minor on whose behalf I am signing this waiver), and to use such photographs/video footage in brochures, newspapers, social media, or other forms of media describing City of Concord activities. I agree to advise the City of Concord Parks & Recreation Department in writing if I do not agree to the forgoing.
