

Development Review Services – Online Permits Information

The City of Concord is pleased to provide online permitting for minor permits using the City's [Online Citizen Access Portal](#).

The Online Citizen Access Portal also allows citizens to search permit and other activities 24/7. Owners and contractors may also check the status of their permit applications and the results of inspections.

The following sections provide information on how to obtain minor permits through the Online Citizen Access Portal:

Minor Building Permits

California Licensed Contractors who register as a Public Access user may obtain minor building (Reroofing and Miscellaneous Plumbing, Electrical and Mechanical) permits utilizing the Building section of the Online Citizen Access Portal. Please see the following link for more information on the available permit types, how to register as a Public User, and how to navigate the Citizen Access Portal to apply for a minor building permit:

Minor Engineering Permits

Registered users of the online Citizen Access Portal may obtain Wide Load permits under the Engineering section of the portal. Before you can start the application process you will need register with the City as a Public User. Part of the registration process includes setting up a Trust Account with the City that will be used to pay for your application fees online. If you are interested in online permitting of Wide Load permits, please contact the Engineering Department at 925-671-3425 or engrapplcations@cityofconcord.org for further details.
