What is your zip code?
What was your level of awareness of ARPA prior to tonight's meeting?

- 47% I heard a little bit about it on the news/online
- 34% I have read the City's ARPA webpage
- 18% ARPA, what?!?
Rate priority (1 - low to 5 - high) of potential investments:
If Concord was to spend ARPA dollars on supporting the unhoused, which types of investments would you prefer?

- **Education**
  - No comments

- **More emergency shelter, dedicated tiny home’s and safe parking more mental health**
  - Please help small business

- **we should purchase a lot where we can fund a sanctioned tiny home village with safe parking area, and tent encampment until permanent housing can be secured, with coordinated support services. A $5-10 million invest.**
  - Designated place to safely sleep in tent, car or RV. A place that community organizations, faith/religious groups can support; include wrap around services.

- **Housing. No more police funding increases.**
  - Affordable housing. No more police funding increases.

- **The most urgent and vulnerable, unhoused.**
If Concord was to spend ARPA dollars on supporting the unhoused, which types of investments would you prefer?

- We need everything but the one program we do not have is one that provides a safe, legal place to sleep, keep their belongings and take their daily needs.

- Assistance for getting employment and mental health services.

- Affordable Housing and Mental Health Services that don’t involve police funding.

- The Contra Costa county had programs for the unhoused.

- Housing. Only 37 homeless were housed so far. Beds at Concord shelter need many more. Hotels or public buildings could be bought or used.

- Designate a safe place to sleep in tent, car, or RV. A place that community groups can help to support and where wrap around services are available. Also access to showers, toilets, trash pick up.

- Training and mentorship. Case management for providing direct services to prepare them for independent living.

- Temporary Shelters with food and shower and warm bed at night far from the city proper and social services like job placements and medical assistance.

- Rehousing within City/County, Rental Assistance, Health Services including Mental

<thead>
<tr>
<th>Investment Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Invest in community land trust -- preserving affordable housing; have the city buy properties that go up for sale and use for affordable housing. Short-term supportive housing. Safe space for folks to camp w/ services.</td>
</tr>
<tr>
<td>Counseling, coaching</td>
</tr>
<tr>
<td>Provide a safe place for the unsheltered to sleep. A place that offers wrap around services, toilets, showers and where community groups can support.</td>
</tr>
<tr>
<td>Small apartments, converted motels, rehab for those with addictions, health needs, counseling for those to stay in housing.</td>
</tr>
<tr>
<td>Apprenticeship programs for employment readiness.</td>
</tr>
<tr>
<td>Increased shelter capacity</td>
</tr>
<tr>
<td>Funding non-profit agencies who provide comprehensive assistance and services for those individuals.</td>
</tr>
<tr>
<td>Prevent people from being evicted and becoming unhoused.</td>
</tr>

If Concord was to spend ARPA dollars on supporting the unhoused, which types of investments would you prefer?

- Affordable housing is what we ask for
- Invest in small business like early childhood educators licensed family childcare providers
- Safe camp for unhoused, safe place to park their car/RV
- Job assistance
- Semi permanent housing to get stabilized.
- Prevent people from being evicted
- Provide areas for people with tents or RV to stay overnight safely
- Navigation services and outreach
- Since most unhoused have substance dependency issues, more resources need to be applied to sobriety programs.
If Concord was to spend ARPA dollars on supporting the unhoused, which types of investments would you prefer?

- Mentorship
- Shelters and temporary shelters
- Housing
- Community investment money for local ownership
- Investment in land/lot to build unhoused community village
- Mental health: So many need to be hospitalized.

1. Rent apartments for the unhoused and pay utilities.
2. Set aside safe places for places to sleep. Provide showers and toilets.
3. Provide tiny houses.
4. Health and mental help services.

First, we need a safe, legal site for people to sleep, conduct their daily activities and keep their belongings (we don’t have this!) and affordable housing.

We urgently need safe camps with sanitation and electricity to charge phones and prepare food for unhoused people while we find long-term permanent solutions. Concord should buy a hotel to provide housing. Increase social services.
If Concord was to spend ARPA dollars on supporting the unhoused, which types of investments would you prefer?

- Safe place to park vehicles in which unhoused people live
- Invest in tenant protections, affordable housing preservation
- Affordable housing we ask
- Affordable rents. Businesses and residents face soaring rents - if the city can't (won't) control rents, spend some of the money to help people pay their rents.
- N/A

Yes
In one word, please describe a key takeaway from tonight’s workshop.
