

RECYCLING FACILITY EVALUATION REQUEST

There are many approved recycling facilities listed on GreenHalo that are currently available for construction disposal. If an applicant or facility would like to have an additional recycling facility added to the approved facilities list on GreenHalo, the facility must be evaluated to ensure it meets state recycling requirements of 65% diversion. The City of Concord will arrange such an evaluation at the request of a facility or applicant. **The cost of this evaluation must be paid for by the requestor. The evaluation does not guarantee the facility will be added to the approved list. Only facilities that are evaluated and proven to meet the state recycling requirements will be added to the approved list.**

In order to complete the evaluation request, complete the form below and submit to bldgpermits@cityofconcord.org.

Once the requests is processed and evaluation performed, you will be billed for the cost of the evaluation. Once this fee has been paid, you will be notified if the facility passed or failed the evaluation.

Name of Requestor: _____

Email of Requestor: _____

Name of Facility to be Evaluated: _____

Address of Facility to be Evaluated: _____

I hereby request the facility listed above be evaluated, and agree to pay all costs associated with such evaluation, not to exceed \$1000.

Signature of Requestor: _____ Date: _____
